

National Optical Astronomy Observatory

Kitt Peak National Observatory • Cerro Tololo Inter-American Observatory • NOAO Gemini Science Center

Mar 15, 2018

Prof. Hu, Zhongwen
Nanjing Institute of Astronomical Optical & Technology
188 Bancang Street
Nanjing 210042
China

Dear Prof. Hu,

It is my pleasure to invite you to visit National Optical Astronomy Observatory over the period of June 3 to 9, 2018. It will be a good time for us to take this opportunity to discuss the design of Chinese 12m optical/infrared telescope and 2.5-meter solar telescope. During the visiting, you will be invited to have a tour of Kitt Peak where the Mayall telescope will prepare to install DESI Spectroscopic Instrument. I am looking forward to meeting you in Tucson.

National Optical Astronomical Observatories.
Senior Optical Engineer.
